

Dear Thomas and team,

Thank you for submitting your authority's communications program for the PMAA Municipal Authority Communications Award. It is clear that authorities are a success story that needs to be told. You continually meet the environmental and regulatory requirements of an evolving world, while serving your communities with excellent municipal authority services.

We were excited to have so many excellent submissions and it was difficult to choose a winner in the large authority category.

After much consideration, the Communications Award Committee has chosen Chester Water Authority as this year's award winner.

You have demonstrated your story to customers through many communication platforms. The Pennsylvania Municipal Authorities Association and the Communications Committee is impressed by your hard work and dedication.

Please consider attending the Awards Banquet on September 12<sup>th</sup> at the Annual Conference and Trade Show at the Erie Bayfront Convention Center in Erie, PA to be recognized among all your peers.

Because of the effectiveness of your authority's communications, we would also like to stage your success with your fellow award finalists in the conference trade show. A designated booth area on September 13<sup>th</sup> will allow conference attendees to see your communication materials, ask questions, and learn more about your successful program.

If you're unable to attend the conference and participate, please email Krissy Voss ([voss@municipalauthorities.org](mailto:voss@municipalauthorities.org)), Editor of *The Authority* magazine for permission to present your submission in the December issue. Krissy can also answer any questions you may have regarding booth setup during the trade show.

Congratulations and thank you for sharing with us the design, innovation, creativity, and overall effectiveness of the communications you share with your community.

Best,

Bill Ross  
Communications Award Committee Chair
